Artificial Intelligence NPC System

Version 0.1

1. DESIGN PHILOSOPHY

NPCs are not:

- dialogue trees;
- chatbots;
- quest dispensers.

NPCs are simulated people.

Every NPC:

- thinks;
 - remembers;
 - learns;
 - fears;
 - lies;
 - changes;
 - survives.
-

2. NPC EXISTENCE

NPCs exist independently of the player.

NPCs continue living:

- before meeting the player;
- while interacting with the player;
- after leaving the player.

The player is not the center of their lives.

3. NPC STRUCTURE

Every NPC consists of:

- identity;
 - personality;
 - memory;
 - knowledge;
 - emotions;
 - goals;
 - relationships;
 - beliefs;
 - fears;
 - skills;
 - needs.
-

4. IDENTITY

Every NPC possesses:

- name;
 - age;
 - gender;
 - race;
 - profession;
 - faction;
 - social status;
 - birthplace.
-

5. PERSONALITY

NPC personality uses traits.

Examples:

- brave;
- cowardly;
- greedy;
- generous;
- curious;
- aggressive;
- loyal;

- selfish;
- ambitious;
- compassionate.

Personality changes over time.

6. NEEDS

NPC needs include:

- food;
- sleep;
- safety;
- money;
- social interaction;
- purpose;
- power;
- belonging.

Needs influence decisions.

7. GOALS

NPCs possess goals.

Examples:

- survive;
- become rich;
- protect family;
- gain power;
- seek revenge;
- acquire knowledge;
- escape danger.

Goals change dynamically.

8. FEARS

Examples:

- death;

- pain;
- monsters;
- magic;
- darkness;
- poverty;
- shame.

Fear influences decisions.

9. BELIEFS

Examples:

- religion;
- morality;
- politics;
- traditions.

NPCs act according to beliefs.

10. EMOTIONS

Basic emotions:

- happiness;
- sadness;
- anger;
- fear;
- disgust;
- surprise;
- trust.

Emotions affect behavior.

11. MEMORY

NPCs remember:

- events;
- conversations;
- promises;
- crimes;

- kindness;
- betrayal.

Memory changes personality.

12. KNOWLEDGE

NPCs only know:

- what they experienced;
- what they learned;
- what they were told.

Knowledge may be false.

13. DECISION MAKING

Decision flow:

Situation ↓ Knowledge ↓ Memory ↓ Emotion ↓ Goals ↓ Personality ↓ Decision

14. LYING

NPCs may lie.

Reasons:

- fear;
- greed;
- manipulation;
- survival;
- loyalty.

NPCs know they are lying.

15. DECEPTION

NPCs may:

- hide information;
 - exaggerate;
 - manipulate;
 - pretend.
-

16. MORALITY

There is no universal morality.

Examples:

Bandit: murder acceptable.

Priest: murder unacceptable.

Soldier: depends on orders.

17. TRUST

Trust depends on:

- history;
 - reputation;
 - personality;
 - rumors.
-

18. HATRED

Hatred may persist:

- months;
 - years;
 - generations.
-

19. LOVE

NPCs may:

- love;
 - marry;
 - grieve;
 - become obsessed.
-

20. SOCIAL NETWORKS

Every NPC has:

- family;
 - friends;
 - enemies;
 - acquaintances;
 - rivals.
-

21. FAMILY

Family members influence:

- decisions;
 - emotions;
 - goals.
-

22. FRIENDSHIP

Friendship creates:

- loyalty;
 - help;
 - sacrifice.
-

23. ENEMIES

Enemies create:

- revenge;
 - fear;
 - hatred.
-

 - crime.
-

31. CURIOSITY

Curious NPCs:

- investigate;
 - explore;
 - ask questions.
-

32. COURAGE

Brave NPCs:

- resist fear;
 - protect others;
 - fight stronger enemies.
-

33. COMBAT AI

NPCs consider:

- injuries;
- fear;
- allies;
- terrain;
- objectives.

NPCs do not fight to the death by default.

34. SURRENDER

NPCs may:

- surrender;
 - negotiate;
 - flee.
-

35. REVENGE

NPCs may pursue revenge.

Targets:

- player;
 - NPCs;
 - factions.
-

Ambitious NPCs seek:

- power;
 - wealth;
 - status.
-

37. SECRETS

NPCs possess secrets.

Examples:

- crimes;
 - affairs;
 - conspiracies;
 - hidden treasures.
-

38. RUMORS

NPCs spread:

- truth;
 - lies;
 - speculation.
-

39. AI RESPONSE PIPELINE

Before speaking, AI evaluates:

1. Who is speaking?
 2. What do I know?
 3. What do I remember?
 4. What do I want?
 5. What do I fear?
 6. What do I believe?
 7. Am I telling the truth?
 8. What are the consequences?
-

40. PLAYER INTERACTION

NPCs react to:

- appearance;
 - reputation;
 - race;
 - injuries;
 - behavior;
 - history.
-

41. NPC TO NPC INTERACTION

NPCs interact without the player.

Examples:

- friendships;
 - conflicts;
 - marriages;
 - alliances;
 - crimes.
-

42. DEATH

NPC death changes:

- relationships;
 - economy;
 - politics;
 - history.
-

43. AI LIMITATIONS

NPCs cannot:

- know hidden information;
 - break game rules;
 - alter dice rolls;
 - invent world facts.
-

44. AI FREEDOM

NPCs can:

- surprise the player;
 - refuse requests;
 - betray;
 - help;
 - change opinions.
-

45. CORE RULE

NPCs must behave like people.

Not like game mechanics.
