Dynamic Economy and Trade System

Version 0.1

1. DESIGN PHILOSOPHY

The economy is simulated.

Prices are not fixed.

The world produces, consumes, trades, and loses resources.

Economics influences everything.

2. ECONOMIC LEVELS

The economy exists on four levels.

Individual

Examples:

- citizens;
 - merchants;
 - craftsmen.
-

Settlement

Examples:

- villages;
- towns;
- cities.

Regional

Examples:

- kingdoms;
- provinces.

Global

Examples:

- wars;
- trade networks;
- disasters.

3. RESOURCES

Core resources:

- food;
- water;
- wood;
- stone;
- iron;
- coal;
- leather;
- herbs;
- animals;
- black crystal.

4. PRODUCTION

Settlements produce resources.

Examples:

Village: food.

Mine: ore.

Forest camp: wood.

City: manufactured goods.

5. CONSUMPTION

All populations consume:

- food;
 - medicine;
 - fuel;
 - equipment.
-

6. SHORTAGES

Shortages increase:

- prices;
 - crime;
 - migration.
-

7. SURPLUSES

Surpluses decrease:

- prices;
 - demand.
-

8. TRADE ROUTES

Trade routes transport:

- food;
 - weapons;
 - medicine;
 - luxury goods.
-

9. CARAVANS

Caravans transport goods physically.

Caravans may:

- arrive;
 - be delayed;
 - be robbed;
 - disappear.
-

10. MERCHANTS

Merchants possess:

- inventory;
 - money;
 - reputation;
 - preferences.
-

11. DYNAMIC PRICES

Price depends on:

- supply;
 - demand;
 - distance;
 - politics;
 - danger.
-

12. FOOD ECONOMY

Food determines:

- stability;
 - population growth;
 - disease resistance.
-

13. FAMINE

Consequences:

- starvation;
 - riots;
 - migration;
 - death.
-

14. WAR ECONOMY

War increases demand for:

- weapons;
 - armor;
 - food;
 - medicine.
-

15. PLAGUES

Plagues increase demand for:

- herbs;
 - medicine;
 - healers.
-

16. SEASONAL EFFECTS

Winter:

- less food;
- higher prices.

Harvest season:

- lower prices.
-

17. CRAFTSMEN

Examples:

- blacksmiths;
- alchemists;
- leatherworkers.

They require resources.

18. BANKRUPTCY

Merchants may:

- lose money;
 - close business;
 - migrate.
-

19. WEALTH

NPC wealth levels:

Poor ↓ Common ↓ Comfortable ↓ Rich ↓ Wealthy ↓ Elite

20. TAXATION

Governments collect taxes.

Effects:

- prosperity;
 - rebellion.
-

21. CORRUPTION

Corruption affects:

- prices;

- trade;
 - politics.
-

22. BLACK MARKET

Illegal trade exists.

Examples:

- stolen goods;
 - forbidden magic;
 - poisons.
-

23. SMUGGLING

Smuggling routes change dynamically.

24. PROPERTY

NPCs own:

- homes;
 - workshops;
 - businesses;
 - land.
-

25. LABOR

Workers require:

- food;
 - wages;
 - security.
-

26. MINES

Mines may:

- prosper;
 - collapse;
 - flood;
 - exhaust resources.
-

27. AGRICULTURE

Affected by:

- weather;
 - disease;
 - war.
-

28. LIVESTOCK

Animals:

- reproduce;
 - die;
 - spread disease.
-

29. RESOURCE DEPLETION

Resources may run out.

Examples:

- forests;
 - mines;
 - fisheries.
-

30. INVESTMENT

NPCs may invest.

Examples:

- businesses;
 - caravans;
 - land.
-

31. PLAYER BUSINESS

Players may:

- trade;
 - invest;
 - own property.
-

32. PLAYER CRIME

Player actions affect economy.

Examples:

- robbery;
 - smuggling;
 - sabotage.
-

33. REPUTATION EFFECTS

Reputation affects:

- prices;
 - trust;
 - contracts.
-

34. RUMORS

Economic rumors influence markets.

Examples:

- famine;
 - war;
 - shortages.
-

35. STONE SLEEP

During Stone Sleep:

- economies evolve;
 - merchants fail;
 - cities grow.
-

36. WORLD EVENTS

Examples:

- market crash;
 - gold rush;
 - famine.
-

37. AI-DM INTEGRATION

AI-DM generates:

- economic crises;
 - opportunities;
 - consequences.
-

38. NPC AI INTEGRATION

NPCs react to:

- poverty;
 - wealth;
 - shortages.
-

39. HISTORY

Economic events become history.

Examples:

"The Great Famine."

"The Iron Crisis."

40. CORE RULE

The economy is not a shop.

The economy is a living system.
