LIVING_WORLD_HEALTH_SYSTEM.md

Version 0.1

1. CORE PHILOSOPHY

The player is not the center of the world.

NPCs:

- become sick;
- get injured;
- recover;
- suffer disabilities;
- age;
- die.

The world continues to exist without the player.

2. NPC HEALTH MODEL

Every NPC has:

- physical health;
- mental health;
- fatigue;
- hunger;
- diseases;
- injuries;
- addictions;
- fears.

Example:

NPC: Blacksmith Harrod

Status:

- healthy

- exhausted
- right shoulder injury

Effects:

- works slower
 - cannot train advanced sword techniques
-

3. NPC INJURIES

NPCs may receive injuries from:

- combat;
- accidents;
- work;
- monsters;
- old age.

Examples:

Minor Injury

- bruises
- cuts

Serious Injury

- fractures
- deep wounds

Critical Injury

- permanent disability
 - loss of limbs
-

4. PERMANENT CONSEQUENCES

Examples:

Hunter:

- lost left eye
- reduced accuracy

Soldier:

- damaged leg
- permanent limp

Smith:

- damaged hand
- reduced crafting quality

Teacher:

- broken arm
 - unable to teach swordsmanship
-

5. NPC DISEASES

Diseases spread naturally.

Examples:

Swamp Fever

Symptoms:

- weakness
 - fever
 - hallucinations
-

Black Lung

Common among:

- miners
- smiths

Effects:

- coughing
 - reduced stamina
-

Blood Rot

Effects:

- infection
 - organ damage
 - death
-

Magical Corruption

Effects:

- madness
 - mutation
 - death
-

6. EPIDEMICS

Diseases may spread through settlements.

Example:

Village: Stonebrook

Population: 120

Infected: 34

Effects:

- shops closed
 - prices increase
 - guards restrict access
 - priests perform rituals
 - healers become expensive
-

7. NPC TREATMENT

NPCs seek treatment themselves.

Possible actions:

- visit healer
 - visit priest
 - buy medicine
 - ask player for help
 - hide illness
-

8. NPC DEATH

NPCs can die from:

- combat
- disease
- poison
- accidents
- starvation
- execution
- old age

Death is permanent.

9. WORLD CONSEQUENCES

Example:

Master Swordsman dies.

Consequences:

- no sword training
 - prices increase
 - faction loses influence
 - quests become unavailable
 - rumors spread
-

10. FAMINE

Food shortages affect settlements.

Effects:

- hunger
 - theft
 - riots
 - migration
 - disease
-

11. WEATHER EFFECTS

Weather affects health.

Examples:

Cold:

- frostbite
- illness

Rain:

- infection risk

Heat:

- exhaustion

Swamps:

- parasites
-

12. MENTAL HEALTH

NPCs may develop:

- fear
- trauma
- paranoia
- depression
- fanaticism

Example:

Guard survives dragon attack.

Result:

- refuses to leave city walls
 - drinks heavily
 - spreads rumors
-

13. PLAYER REPUTATION EFFECTS

The player can influence public health.

Examples:

Help during epidemic:

- reputation

Spread disease:

- reputation

Kill healer: major consequences

Supply medicine: economic benefits

14. AI NPC KNOWLEDGE

NPCs know only what they could realistically know.

Example:

Village farmer knows:

- local illnesses
- local deaths
- local rumors

Village farmer does not know:

- political secrets
- distant wars
- hidden locations

15. CORE RULE

Every death changes the world.

Every illness affects society.

Every injury creates a story.
