WORLD_MAP_SYSTEM.md

Global World Map and Travel System

Version 0.1

1. DESIGN PHILOSOPHY

The player does not directly control movement.

The player controls:

- destination;
- route;
- preparation;
- decisions during travel.

Travel itself becomes gameplay.

2. WORLD STRUCTURE

The world consists of:

- continent;
 - regions;
 - settlements;
 - roads;
 - wilderness;
 - ruins;
 - dungeons;
 - hidden locations.
-

3. MAP SCALE

The game uses:

Strategic World Map

Approximate size:

4096 x 4096 world sectors.

The player never sees the entire world at once.

4. PLAYER POSITION

The player exists on the world map as:

- traveler;
 - caravan member;
 - rider;
 - expedition.
-

5. TRAVEL SYSTEM

Travel process:

Choose Destination ↓ Choose Route ↓ Prepare Supplies ↓ Begin Travel ↓ Random Events ↓ Arrival

6. ROUTE TYPES

Examples:

Main Roads

Advantages:

- safe;
- fast;
- trade.

Disadvantages:

- taxes;
- patrols.

Forest Paths

Advantages:

- hidden;
- shorter.

Disadvantages:

- dangerous.
-

Mountains

Advantages:

- strategic.

Disadvantages:

- slow;
 - deadly.
-

Rivers

Advantages:

- transport.

Disadvantages:

- weather risks.
-

7. TRAVEL SPEED

Affected by:

- weather;
- injuries;
- equipment;
- companions;
- terrain;

- mounts.
-

8. VISIBILITY

Visibility depends on:

- weather;
 - daylight;
 - skills;
 - geography.
-

9. DISCOVERY SYSTEM

The map is initially unknown.

The player discovers:

- roads;
 - settlements;
 - ruins;
 - secrets.
-

10. MAP TYPES

Examples:

- hand-drawn maps;
 - military maps;
 - magical maps;
 - incomplete maps.
-

11. BIOMES

Examples:

- forest;
- swamp;
- mountains;

- plains;
 - ruins;
 - wastelands;
 - caves.
-

12. WEATHER

Weather affects:

- speed;
- combat;
- health;
- visibility.

Examples:

- rain;
 - snow;
 - fog;
 - storms.
-

13. DAY/NIGHT CYCLE

Time affects:

- encounters;
 - travel safety;
 - NPC activity;
 - monsters.
-

14. RANDOM EVENTS

Examples:

- bandits;
 - merchants;
 - monsters;
 - refugees;
 - accidents;
 - discoveries.
-

15. EVENT TRANSITIONS

World Map ↓ Event Trigger ↓ Scene Generation ↓ Player Interaction ↓ World Map

16. SETTLEMENTS

Settlement types:

- villages;
 - towns;
 - cities;
 - camps;
 - monasteries;
 - fortresses.
-

17. HIDDEN LOCATIONS

Examples:

- caves;
 - ruins;
 - cult shrines;
 - treasures.
-

18. DUNGEONS

Dungeons exist as separate scenes.

Examples:

- mines;
 - ruins;
 - temples;
 - caves.
-

19. ROADS

Roads have properties:

- quality;
 - safety;
 - traffic;
 - ownership.
-

20. DANGER LEVEL

Regions possess danger levels.

Safe ↓ Uncertain ↓ Dangerous ↓ Deadly

Players never see numbers.

21. MONSTER TERRITORIES

Monsters control territories.

Examples:

- wolf packs;
 - trolls;
 - dragons.
-

22. CARAVANS

Caravans travel independently.

Player options:

- escort;
 - trade;
 - attack;
 - ignore.
-

23. FACTION CONTROL

Regions may belong to:

- kingdoms;
 - guilds;
 - cults;
 - bandits.
-

24. WAR ZONES

War changes maps.

Examples:

- destroyed roads;
 - burned villages;
 - refugees.
-

25. EXPLORATION

Exploration reveals:

- locations;
 - rumors;
 - resources;
 - secrets.
-

26. SURVIVAL

Travel requires:

- food;
 - water;
 - medicine;
 - equipment.
-

27. CAMPING

Players may:

- rest;
 - heal;
 - cook;
 - plan.
-

28. STONE SLEEP

During Stone Sleep:

- roads change;
 - settlements evolve;
 - wars continue;
 - disasters occur.
-

29. MAP MEMORY

The player remembers:

- discovered roads;
 - settlements;
 - dangers;
 - rumors.
-

30. RUMOR MAPS

NPCs may describe locations incorrectly.

Example:

"There is a ruin north of the forest."

Reality:

The ruin is east.

31. AI-DM INTEGRATION

AI-DM generates:

- travel events;
 - atmosphere;
 - discoveries.
-

32. THOUGHT SYSTEM INTEGRATION

Examples:

- This road seems dangerous.
 - We should rest.
 - Something feels wrong.
 - I think we are being watched.
-

33. WORLD SIMULATION

The map changes over time.

Examples:

- cities grow;
 - villages disappear;
 - roads collapse.
-

34. PLAYER GOAL

The player is not clearing map markers.

The player is exploring a living world.

35. CORE RULE

Travel is not movement.

Travel is adventure.
